

PRODUCT CHANGE NOTIFICATION (PCN)

PCN Number: 01/2018
Title: Change of packaging and MOQ for all dart models
Product Family: dart (all models)
Release date: January 15, 2018
Contact: Basler Support
Type of Change:
 Miscellaneous **Firmware** **PC Software**
 Product design **Process**

Reason for Change

Due to persistent problems in logistics, inventory management and release management caused by single dart orders associated with loans and general design sample as well as custom dart prototype distribution all dart models (dart USB, dart BCON for LVDS) are now shipped in single packaged units.

Change Description

To date, the dart USB as well as the dart BCON for LVDS camera modules have been shipped in package units of 5 cameras. Also, the minimum order quantity for all dart models has been 5 pieces. Starting from January 15th 2018 this will change and all dart models (dart USB, dart BCON for LVDS) will be shipped to customers in single packaged units. In addition to that the MOQ is reduced to 1 piece for all models.

The changeover to individual packaging has no effect on the current list prices of the dart family (dart USB, dart BCON for LVDS). Also, with changing the minimum order quantity, all customers are no longer obliged to order a multiple of 5 dart cameras.

Affected models and expected first production / shipping date
