Product Family: VisualApplets
Release date: November 1st, 2022
Contact: Basler Support
Type of Change:
 Miscellaneous Firmware **PC Software**
 Product design Process

Reason for Change

To enhance VisualApplets for Basler customers, the VisualApplets licensing model will be simplified starting with VisualApplets version 3.3.2.

Change Description

Starting from November 1st 2022, all licenses for previous VisualApplets extensions, e.g., VisualApplets 3 Expert License, VisualApplets 3 Debugging License, VisualApplets 3 Parameters Translation License, VA3 LIB JPEG Compression License, VA3 LIB Segment./Classification License, will be discontinued.

Instead, these licenses will be automatically included into the VisualApplets IDE License.

The same change also affects all corresponding VisualApplets test licenses, which will be included into the VisualApplets IDE (Eval.) License.

The changes will be effective with VisualApplets version 3.3.2 and will apply to all upcoming VisualApplets versions.
