

PCN Number: 07/2022
Title: Exchange of Getting Started Guide
Product Family: ace & dart
Release date: September 27th, 2022
Contact: Basler Support
Type of Change:
 Miscellaneous **Firmware** **PC Software**
 Product design **Process**

Reason for Change

We continuously optimize our products and processes. For this reason we decided to optimize our Getting Started Guide. The Getting Started Guide is a letter where we explain how to get started with a camera. Until today it is enclosed in every box within which the camera is delivered.

This change will lead to a better quality of information for our customers by using our online product documentation. Furthermore, we avoid the usage of unnecessary paper which is often discarded. This takes us one step closer to less paper consumption in terms of sustainability.

Change Description

The Getting Started Guide which is enclosed within the box of each camera will be exchanged by an universal product inlay card.
