From: Basler Product Management
Date: August, 25th 2021
Subject: Product Discontinuation (End-Of-Life) dart camera variants with BCON for LVDS

Reasons for discontinuation:

The market for Basler dart cameras with BCON for LVDS interface has evolved quickly and focussed more on other well-known and accepted interfaces such as MIPI and USB 3.0, which has led to the decision to no longer support Basler dart cameras with BCON for LVDS interface. Furthermore, with immediate effect these variants are no longer available for order and service.
