

# PRODUCT CHANGES

www.baslerweb.com

**From:** Basler Product Management  
**Date:** July 26<sup>th</sup> 2021  
**Subject:** ace cameras with MT9F color sensor End-Of-Life

## Reasons for discontinuation:

One of the side effects of the worldwide pandemic, its recurring lockdown measures combined with disturbances in worldwide logistics, has led to a strong mismatch between a surge in demand and limited supply for semiconductor-related components (e.g. sensors, chips, and other electronic parts). As vision components provider and camera manufacturer, Basler is strongly dependent upon the availability of these materials, in particular of sensors.

onsemi discontinued its MT9F color sensor and we therefore discontinue all cameras with the mentioned sensor as listed below.

Basler appreciates and values our trustworthy business relationship and looks forward to your continued interest in our products. While we regret any inconvenience this announcement may cause, we are eager to supply your future vision system and solution requirements.

For questions about customized cameras based on these models, please contact your local sales representative.

Due to unexpected high demand, the availability of some models might be more critical than of others. Therefore, we kindly ask you to place your Last Time Buy orders in time as we process orders on a first come first serve basis. Any supply will be subject to Basler AG's capacity and resource constraints as well as to timely and contractual supply by pre-suppliers.

Obligations beyond the final ship date will be limited to warranty support only.  
The supply of products will be subject to Basler's general terms and conditions of sale or any specific
