

PRODUCT CHANGES

From: Basler Product Management
Date: 15 August 2024
Subject: End of Life for Basler ace cameras with ICX274 color sensor

Reason for discontinuation:

Basler cameras with CCD sensors from Sony have been in the market for many years and formed the base for various successful cameras our customers could always rely on. During the last years, CMOS technology has made extensive progress and has achieved a very advanced level. Basler has a broad camera portfolio with CMOS sensors and provides highly suitable replacements for the discontinued CCD sensor based cameras.

Sony discontinued their CCD sensor family in 2015 and stopped their CCD sensor production. Thus the availability of cameras with the affected sensors is dependent on the remaining available volumes of each sensor model. For ICX274 color this reached a critical amount and we discontinue the affected camera models now.

We understand the challenges this discontinuation causes and will do our best to guide our customers along the way finding appropriate camera models for CCD replacement.

| Basler ace | | | | |

For questions, concerning customized cameras based on these models please contact your local sales representative.

Due to unexpected high demand the Last Time Buy period might end earlier at short notice and no more orders can be placed. Therefore, we kindly ask you to order your Last Time Buy amount in time.

Obligations beyond the final ship date will be limited to warranty support only. Any supply will be subject to Basler AG's capacity and resource constraints as well as to timely and contractual supply by pre-suppliers.

The supply of products will be subject to Basler's general terms and conditions of sale or any specific
