From: Basler Product Management
Date: June 14, 2023
Subject: Product discontinuation of Basler C10 lens series

Reasons for discontinuation:

After several years of selling the C10 lens series, the supplier has unexpectedly stopped production of the series due to procurement problems. Therefore we are forced to discontinue the lenses as well.

Product availability depends on remaining stock. We kindly ask you to place your Last Time Buy orders in time because unpredictable demand can change the availability of the remaining products on short-term.

The recommended replacements, providing similar or better functionality, are indicated in the table below.

We understand the challenges this discontinuation causes and will do our best to guide you along the way. Please contact your local sales representative for assistance.
