**From:** Basler Product Management  
**Date:** March 26, 2024  
**Subject:** Product/Product line impulse Frame Grabbers End-Of-Life

## Reasons for discontinuation:

The programmable **impulse frame grabbers** were offered as a customized extension of the CXP-12 product series. The conversion of the impulse frame grabbers to standard products and their integration into the frame grabber portfolio required technical adjustments to the runtime environment and VisualApplets, as well as changes to ordering process by a new product name. Hereby impulse frame grabbers will be discontinued with immediate effect and are replaced by **imaFlex CXP-12 Quad**.

Even though backward compatibility between impulse and imaFlex CXP-12 Quad is guaranteed, only imaFlex products and updated operating environments will be delivered with immediate effect.
