RoHS Statement Accessories

Product Group: Data Cables - BCON Cables

Dear Sir or Madam,

Directive 2011/65/EU of 8 June 2011 regulates the restriction of the use of certain hazardous substances (RoHS) in electrical and electronic equipment (EEE). Prior RoHS Directive 2002/95/EC is repealed as from 3 January 2013.

For the purposes of Directive 2011/65/EU, no more than the maximum concentration value by weight in homogeneous materials as specified in its Annex II, in detail lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE), shall be tolerated in EEE placed on the EU market.

Further, **Delegated Directive (EU) 2015/863 of 31 March 2015** amending Annex II to Directive 2011/65/EU has been published by European Commission to add the following phthalates onto the list of restricted substances: Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP), Diisobutyl phthalate (DIBP).

Basler declares that to its knowledge

Product Group: Data Cables - BCON Cables

Part No.	Part Description
2200000068	Cable BCON, 400mm
2200000324	Cable BCON, 200mm

is in conformity with Directive 2011/65/EU as amended by Delegated Directive (EU) 2015/863.

Still, above listed material is not in scope of RoHS Directive and does not require an EU Declaration of Conformity as the definition of cables given in Directive 2011/65/EU does not apply here.

In Article 3 (5) the Directive 2011/65/EU defines cables as follows:

“cables’ means all cables with a rated voltage of less than 250 volts that serve as a connection or an extension to connect EEE to the electrical outlet or to connect two or more EEE to each other”

Best regards

Soniya Struve, Product & Material Compliance Manager
